### Interactive

Edios eConsenting Solution is interactive, with rich functionality, clear visuals and simple navigation, delivering ease of configuration and a solution that continue to add value in the Informed Consenting process.

### Compliance

Edios eConsenting Solution is a HIPAA compliant and has stringent security & privacy practices to protect patients' health information. It follows strict & standardized procedures for Access Controls, Network, Data, Application, and Operations Security.

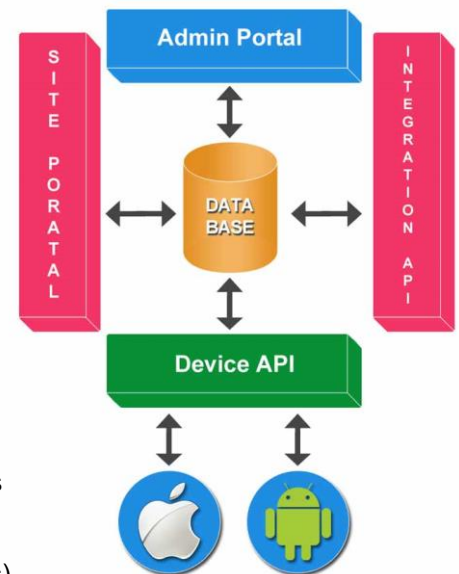

## Edios eConsenting Solution

Edios eConsenting Solution is changing the way sites work with patients by transforming an inefficient process, supporting regulatory and protocol compliance, and improving patient comprehension, satisfaction and retention.

Edios eConsenting Solution makes the informed consenting process more efficient and effective for patients, sponsors, sites and monitors. Elegantly designed to focus attention with documents that are easy for all patients to read, the fully-validated eConsent solution uses explanatory videos, audio narration and glossary terms to put "informed" back into informed patient consent.

## Edios eConsenting Key Features

- Ensure patient understanding with engaging multimedia education
- Enable real-time remote monitoring and tracking into the global consent process
- Provide unprecedented insight into how patients read and understand documents
- Improve patient retention through increased comprehension and satisfaction
- Comply with global requirements (e.g. 21 CFR-Part 11, Annex 11, EU regulations)
- Eliminate common paper errors (e.g. wrong versions, bad signatures) with secure document management

### Patients

- View multimedia education with consistent ICF term explanations
- Better understand the risks and benefits of trial participation
- Online Help with Frequently Asked Questions & Answers

### Site Staff

- No longer manage different versions of paper documents
- Include all site specific variables in the documents
- Receive alerts and track if/when subjects need to re-consent

### Monitors

- Check on a site consent status conveniently and remotely
- See only the information they have authority to view
- Have confidence that dates/times are always correct

### Sponsors

- Rest assured of the integrity of the consent process
- Access useful analytics to track progress and identify trends
- Achieve better recruitment and retention rates

### Problem Solved

- ✓ Inconsistent messaging
- ✓ Challenging language(s)
- ✓ No Transparency/Accountability
- ✓ Lack of auditable controls
- ✓ Frequent regulatory failures
- ✓ Version Management/Control
- ✓ Time-consuming and error-prone paper-based logistics
